

### INSTRUCTIONS FOR USE

#### HOW TO USE YOUR SPOTTING SCOPE

1. Attach the spotting scope body to the tripod.
2. Select either straight or angled view by rotating the rear portion of scope body. The desired viewing angle should be rotated to the upper most position. Install the eyepiece.
3. Extend the front objective lens tube forward. Rubber sunshield can be extended when necessary to eliminate glare.
4. Set suitable power rate by adjusting power zoom wheel on eyepiece. Then adjust focus wheel until target can be seen clearly.
5. Fold down eyecup for use with eyeglasses and fold up for use without eyeglasses.

#### HOW TO CARE FOR YOUR SPOTTING SCOPE

1. Keep the lens cover & eyepiece adaptor cover on when the spotting scope is not in use.
2. When wiping the lenses, use the included lens cloth or a soft, lintless cloth.
3. To remove any remaining dirt or smudges, add one or two drops of isopropyl alcohol to the cloth.
4. Store your spotting scope in a moisture free area.

#### VERY IMPORTANT

Never attempt to clean your spotting scope internally or take it apart.

Caution! Viewing the sun can cause permanent eye damage. Do not view the sun with this product or even with the naked eye.
